*Does not meet the conclusion from the The Health Consequences of Involuntary Exposure to Tobacco Smoke: A Surgeon General's Report, 2006, that states, "eliminating smoking in indoor spaces fully protects nonsmokers from exposure to secondhand smoke. Separating smokers from nonsmokers, cleaning the air, and ventilating buildings cannot eliminate exposures of nonsmokers to secondhand smoke."												
**These venues are covered by the law and required to be smokefree unless entrance is restricted to persons over the age of 18 or 21.
